

Nate and I went to check on a lady who has been apart of our lives before we had children. We just to see how she was doing. She told us about some pains in her body and other health problems. So, we prayed for her. That was about two weeks ago. Well, she sent us a letter day before yesterday stating that her knees no longer have any pain . . . mind you she is 100 years old.

Man thank you Jesus for helping our mom—the great grandmother of our kids! (Keasha Barber)
