

## New Home Even After Bankruptcy!

In 2007, my husband Jim lost his job. Over the next 4 to 5 years we lived on one quarter of our previous income. In 2012 we filed bankruptcy and our house went into foreclosure. Jim was hired at Halliburton, which paid him a six-figure income. We were told that we would have to wait 3 to 5 years to purchase another home, however we believed for 2 years. Eighteen months later, a realtor friend told us there was a new program that would allow us to purchase a home after one year.

We began the process October of 2013... we're now closing on our dream home as of March 31, 2014. Our closing costs were supposed to be \$16,000... the actual cost was \$6000. God's timing is perfect! We received money from the seller towards our closing costs and \$7000 grant towards the down payment. We never lost faith that through this difficult journey God had (*and continues to have*) an amazing plan for us. If He did it for us he will do it for you. We give God all the honor and glory!
