

# Wonderful World of Women

## TODAY'S MESSAGE

By Nina Korsen / Kathryn Meyer

**WOMEN ARE QUITE REMARKABLE.** Besides uniquely bearing children and being moms, they are wives, friends, daughters, artists, scientists, educators, politicians, athletes, authors, students, caregivers, and workers and professionals of all

kinds. In this message we celebrate the Wonderful World of Women!

Today's message is just part of the message of freedom and grace that we teach here at Genesis. We're a gathering of people from many religious backgrounds, but we've dropped the

labels. We embrace the Bible as God's authoritative, divine declaration of how to do life and navigate through life's complexities. We believe a walk of faith in Christ is about grace and truth, about love and mercy, not about the pursuit of being RIGHT!

belong. **believe.** *become.*

To invite people into a growing faith in Jesus Christ... a gathering where God's presence is experienced in love and power.
